Dear Colleagues,

GCTU ALUMNI ASSOCIATION ELECTIONS

The office of the GCTU Alumni Association extends its compliments to all members and wish to update you on the above subject.

Following the Alumni maiden elections, the Alumni WhatsApp platform was restricted to only administrators to send messages as a housekeeping measure and also to curtail further expression of grievances from members on the platform. The decision by the Office of Alumni President to restrict the page was unfortunate, but this was inevitable. We therefore apologise for any inconvenience caused.

The Alumni elections was conducted on October 19, 2023 and the results has since been annulled following irregularities detected. At a Management meeting held on November 6, 2023 at the instance of the Vice-Chancellor, the Alumni President, all Candidates and the Electoral Committee (EC) team, it was unanimously decided that the election results be annulled based on the substantive election irregularities that were presented by the E-Election System Administrator.

Pursuant to the above, the irregularities was referred to a Committee to investigate and submit a report with its recommendations to Management.

The Alumni President was charged by Management to re-constitute a new EC Team to conduct fresh, free and fair elections as soon as practicable. This is to precede with the compilation of a credible and clean electoral register for this purpose.

The EC has since been constituted and an online form designed to capture members' information onto the voter's register which has adequate security measures put in place to

have a credible register. The team is keen on enhancing the security measures for our Alumni members by providing them with official university domain emails. This step is crucial in ensuring the confidentiality and integrity of communications within our alumni network. Having emails under the university domain will not only enhance security but also reinforce the sense of belonging among our alumni.

To ensure the credibility and efficiency of the election process, the team has sought the support from the Directorate of ICT in setting up the necessary IT infrastructure that would facilitate a smooth and secured online voting system.

We hereby request all Alumni to complete the online form and submit same by close of day December 15, 2023.

Thank you.

[Signed]
